QTY:

WHITE SILKIES: These unusual birds are known for their black skin and hair-like plumage. Having a fifth toe is also an unusual trait. These birds date back to the days of Marco Polo and have remained popular as an excellent setter & for their friendly nature. The Whites are the quietest of the silkies.

Due to their small size, Bantam breeds are only vaccinated for Coccidiosis.

QTY:

GOLDEN LACED COCHIN BANTAM:

These delightful birds arrived from China with returning soldiers around 1860. Cochins are heavily feathered down the shanks and toes and appear larger than they actually are. They are very gentle, are excellent setters, require little space, and are absolutely beautiful to look at.

All bantams and standard heritage breeds are ordered UNSEXED ONLY. While we will make every effort to differentiate between breeds, BLUE BARN cannot guarantee breed selection, OR sex or cockerel/pullet ratio of any given bird.
