assorted Standard Heritage breeds: 1-24 \$14.95ea.; 25+ \$13.95ea.

QTY:

BLACK AUSTRALORP: The *Black Australorp* is the Australian equivalent of the *Orpington*. These are a docile bird despite the dominant black color, and have an appealing round body with an upright 5-point comb. They are an excellent dual-purpose bird.

BUFF ORPINGTON: It was the early 1800's before the *Buff Orpington* was brought here. They have broad, smooth fitting feathers on their massive bodies. They're excellent winter birds, good layers, and with beautiful pale meat, this is a top-class dual purpose bird.

QTY:

QTY:

SPECKLED SUSSEX: The *Speckled Sussex* is a lively yet docile breed that can adapt to any surroundings. They enjoy the presence of humans and make delightful curious pets. They are good foragers and are generally a hardy variety for colder climates.

AMERAUCANA: This American version of the *Ameraucana* has tail feathers unlike their rumpless ancestors. Not as big as other breeds, it is a fine layer of quality large blue-green eggs. Their delightful beards and multi-colors have kept it a very popular heritage breed for many years.

QTY:

QTY:

CUCKOO MARANS: *Cuckoo Marans* are historically a dual-purpose bird, laying 150-200 extremely dark brown eggs per year, with standard weights 7-8lb cockeral, and 6lb hen. They are generally quiet and docile, but are quite active, taking well to free ranging in rough terrain, and are also tough and disease-resistant.

BLUE ANDALUSIAN: Andalusians are originally from Spain are are a white egg layer. They are smallish, active, closely feathered birds that rarely go broody; roosters will weigh around 7lbs and hens 5lb. They tolerate heat better than cold, but need shade to retreat to when it becomes too hot or humid.

QTY:

QTY:

BIELEFELDER: The Bielefelder, known as a "gentle giant," is a relatively newer breed of chicken, first appearing the USA in 2011. This breed has a great cold tolerance. They are friendly, calm chickens, and can produce large brown eggs.

COPPER MARANS: In post-war France, the breed was nearly non-existent. It was introduced to North America in the 1990s and is a popular breed today. They are fantastic egg layers with the darkest color egg. These birds are non-aggressive and are great at foraging.

QTY:

QTY:

LAVENDER ORPINGTON: The Orpington breeds were originally developed in England in the 1880s; however, the lavender version was bred in the 1990s. Known to be curious, docile, and intelligent; they are large yet compact. A good egg layer, can be broody and will sit on any egg.

GOLDEN LACED WYANDOTTE: The *Golden Laced Wyandotte* are great layers of medium-size, light brown eggs. They have a tendency to be broody with strong personalities, but docile with their keeper. Very cold hardy with dense feathering and stunning plumage.

QTY:

All bantams and standard heritage breeds are ordered UNSEXED ONLY. While we will make every effort to differentiate between breeds, BLUE BARN cannot guarantee breed selection OR sex, or cockeral/pullet ratio of any given bird.
